Whole Number 558

U.F.A. Constituency Association Meets.

A meeting of the Executive of the Stony Plain Provincial Constituency Political Ass'n of the U.F.A. was held in the town hall on Friday last, with the Constituency president, Mr W F Broadstock, in the chair.

Owing to the absence of Secretary Joe Best, who was confined to his bed thru an injury to his foot, the secretarial duties devolved upon Mr C Pitzler.

In his address the President complimented the meet-

ing on the splendid turnout of delegates, practically every Local in the Constituency being represented.

After some lengthy discussion, the resolution carried, that the proposition to mobilise the buying power of the farmers in this Constituency be undertaken by the officers of the United Farmers Locals; this to be followed by a general meeting of the Constituency Ass'n, to be called later by the president.

It was arranged that a summer convention will be held, possibly the latter part of the

A. B. Schario Freed.

A case which was tried before Magistrate Williams in Stony Plain a short time ago had a re-hearing last week in Edmonton before Mr Justice Tweedie, and the conviction of the magistrate quashed.

The case was that of A B Schario, who had been sentenced to 3 months' imprisonment for checks which he had issued in payment of cattle obtained from M Schellenberger.

Schario's conviction was upset on the grounds that the words "a produce dealer in the province of Alberta" had not been entered upon the warrant of commitment issued by the magistrate. Mr Justice Tweedie commented upon the legality of the section under which Schario was charged, and expressed an unofficial opinion that the section was ultra vires of the province.

month of July, at South Edmonton Beach.

The fixing of the date of this will be left in the hands of Donald MacLeod, M.L.A., and President Broadstock. An effort will be made to secure the attendance of Mr Robert Gardiner, president of the U. F. A., and Premier Brownlee.

The committee in charge of the picnic arrangements consists of Mr C Pitzler (Stony Plain) P Davidson (Holborn) and Erickson (Hansen Corners)

Immortalizing Pioneer Priest

One of the most colorful figures of the development of the Canadian West is immortalized today at the scene of his labors, St. Albert, on the Sturgeon River, just outside Edmonton, by the presentation in the Mission Park of the Oblate Fathers of the original "cathedral" and main altar which he founded in 1860, under orders from His Lordship Bishop Tache, of St. Boniface, and in which he carried on his work until his death in 1916. This celebrity is no less renowned a personage than Rev. Father Albert

Lacombe, after whom Lacombe, Alta. is named, and who played such an important part in the pacifying of the warring Indian Tribes of the West and the building of the Canadian Pacific Railway. His untiring efforts in the latter connection won him special recognition from Sir William Van Horne, its resident, who not only gave him a permanent pass on the line, but made him its head for one day. From the day of his arrival in the West in 1849, from Quebec, where he was born in 1827, this brave and energetic Oblate had staunch friends among the Indians and continued to establish himself, both among them and the white population, as one of the best-known and most-loved characters of the most stirring days of the Prairies. Apart from his religious activities, Father Lacombe is known as one of the real Westerners of Canada. The country was in a very undeveloped state when he first established himself in it and Mission Park, today, stands for a great deal more than just a mission station, or the scene of a devoted missionary's labours. It is a milestone in the progress of the Canadian West and, hence, in the progress of the Dominion. The pictures show: (1) the approach to Mission Park; (2) the interior of the old "cathedral"; (3) its exterior, with the brick building which now encases the old log church, and, (inset) the statue of Rev. Father Lacombe.

Developments In Transportation

It is obvious to even the most casual observer of current happenings that we live in an age of rapid changes and revolutionary developments. Hardly a year passes that does not record some new invention, or the application of some hitherto known force to an entirely new purpose. The world makes progress and progress cannot and must not be stopped, but in this onward march there is always a lurking danger that we may be weakening, possibly destroying, something which, in our own interests, we can ill afford to injure or destroy.

Does the general public, for example, fully realize the true meaning of the situation which has arisen in the realm of public transportation owing to the introduction and rapid increase in the use of motor busses for passengers and huge trucks for freight haulage upon our highways, and the effect which this development is having upon our railways? Without giving the matter much consideration many people may say: "We are not concerned as to the effect on the railways; they can look out for themselves." But this is a short-sighted view, because what affects the railways affects every producer, every taxpayer, every citizen in this country.

Let us briefly examine this new development, not from the standpoint of the railways, or of the passenger busses and freight trucks, but from the standpoint of the farmer-producer, the merchant, the ranks of labor, and the individual taxpayer.

The people of Canada have invested hundreds of millions of dollars in railways. They are paying heavy taxes today because of land grants, tax exemptions, cash subsidies, bonuses, guarantees of bonds and the payment of deficits in years past, in order to provide these essential services. Today the people of Canada are the owners outright of more than one-half the railway mileage in Canada, while thousands of Canadians, as individuals, are financially interested in the second great railway system of this Dominion. It is in the interests of every citizen, therefore, that our railways be operated efficiently, financially as in all other respects.

During recent years the taxpayers of Canada, Federally, Provincially, and Municipally, have been investing tens of millions of dollars annually in the provision of good roads. Thousands of miles of all-weather highways have been built, and the constant demand is for still more and better highways. The tax burden is mounting higher and higher as a result. The advent of the automobile forced this newer development. It could not be prevented; it is not to be regretted; it is progress.

But these improved highways have created a new situation, namely, the development of motor transportation services over these highways for both passengers and freight haulage. The outcome is that the competition which the privately owned and operated automobile offered to the railway passenger service, has been intensified, with the result that railway freight earnings,—the most profitable department in railway operation,—are suffering.

Briefly stated, that's the situation. Having taxed ourselves to create the railways, we have now taxed ourselves to create the means whereby rival services are made possible to cripple the institutions in which we are so heavily interested, financially and otherwise.

What does this mean, say to the farmer-producer of Western Canada? Everywhere the demand is being voiced that railway freight rates should be reduced; that in view of the present low price of all farm products, existing freight charges on these products to the markets of the world are too high, and altogether out of proportion to the price of the commodities transported. Granting this to be true, the fact remains that it costs the railway just as much to move a bushel of 50 cent wheat as it does to move a bushel of \$1.50 or \$2.00 wheat.

So far as the farmer-producer is concerned he must rely upon the railways to transport his product. He may move it from his farm to the nearby elevator in a truck, but he cannot so transport it to the head of the lakes ports or to the seaboard. The railways must do that. Neither can he depend upon motor truck services to bring to him all the heavy machinery and equipment from far distant points; the railways must do that, too.

Therefore, the question for the farmer-producer, and for the merchant who depends upon the success of farming for his livelihood, to face and answer is: How can freight rates be reduced; how in fact can they be maintained even at present figures, if the railways lose the revenues accruing to them from short hauls, and the lighter classes of freight?

This article, and a second one to follow, is not written as an apologist for, nor as propaganda in behalf of the railways, but solely in order to direct attention to some factors now entering into the transportation problems of this present age.—Editor.

Herd Improvement Association

Saskatoon Organisation Awarded 38 Certificates Of Production
 Members of the Saskatoon Herd Improvement Association have been awarded 38 certificates of production by the provincial dairy branch since the beginning of the year, reports J. N. Wilcox, recorder of the association. These include plain certificates for cows producing over 300 pounds of butterfat in the 10-month period and blue seal certificates for the cows making over 400 pounds.

A Best Seller

John Bunyan is a best seller in Tibet. A special translation of "The Pilgrim's Progress" was prepared for Himalayan readers by the Religious Tract Society—and now only two copies remain on the society's shelves.

A MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat.

When you take vitalizing Kruschen Salts for a few days that old indolent arm—chair feeling deserts you—it doesn't matter how fat you are—the urge for activity has got you—and you're "stepping lively."

And best of all you like this activity—you walk a couple of miles and enjoy it—you thought you'd never dance again, but you find you're getting as spry as ever—the old tingling, active feeling reaches even your feet.

Kruschen is a combination of the six salts Nature has already put into your body to keep you alive—if it were not for these vital salts you could never live.

One bottle is enough to prove to you that Kruschen will make you feel younger—spryer—more energetic—you'll enjoy life—every minute of it.

A half teaspoonful in a glass of hot water every morning is all you need to keep healthy—keep your stomach, liver, bowels and kidneys in splendid condition—free your system from harmful toxins and acids.

Artificial graphite, an electric furnace product, is made near Niagara Falls, Ontario.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powder. They will attack the worms as soon as administered, and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

Couldn't Be True

The drunk halted in front of an enormous stuffed tarpon in a glass case. He stared at it for a minute or two in silence. Then he said: "The fella who caught—hic—that fish is a—hic—liar!"

Bats can remain head-down throughout an entire winter's sleep.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."
 —Mrs. Milton McMillan, Vanessa, Ontario.

Visions Of Establishment Of An Iron Smelting Industry Is Seen For Ontario Province

Visions of the establishment some time in the future of a huge iron smelting industry in the district of James Bay were stimulated by the announcement that the government has withdrawn the unalienated portions of Belcher Islands, in Hudson Bay, from public exploitation pending a thorough investigation into the character and extent of the hematite deposits there.

"Coupled with this, in the minds of those who foresee further extensive developments for Northern Ontario was the fact that examinations of a most elaborate nature are at present being made on the suitability for all purposes of the lignite deposits in the Abitibi region.

Coal and iron being complementary the one to the other in establishing the basis of all manufacturing industry, the discovery and development of the two in such close proximity as Belcher Islands are to Abitibi have encouraged the hope that Canada's independence of external sources for the nation's supply of iron ore may eventually become considerably more than a "pious wish."

The prospect of the ore being transported in barges from the islands of Hudson Bay to the ocean port which the Ontario government proposes to found at the debouchment of the Moose River is one which has captivated the imagination of those most closely connected with the operations.

Expanding the theme, the possibility was envisaged of such a development furnishing an additional outlet for the coal of both Nova Scotia and Alberta. In the former case the coal could be water-borne all the way from Sydney, N.S., up the coast of Labrador, through the well-charted Hudson Straits and down to James Bay. In the latter case a comparatively short haul from the Alberta colonies to Churchill would bring the western product to tidewater.

The government's examination of the Belcher Islands deposits will be conducted under the supervision of the Department of Mines.

Farm Organization

Writer Maintains Operating Costs Can Be Reduced and Production Stimulated

The history of agriculture demonstrates that operating costs can be reduced, production per worker stimulated, standards of living raised and national wealth increased by the adoption of farm organization, home improvements in equipment, was the conclusion reached by Andrew Stewart of Manitoba Agricultural College who won the Royal Bank of Canada economics fellowship competition for 1930-31.

The prize was worth \$1,000. Second place was given to "Recent developments in wholesale and retail distribution," by George D. Thomson, of University of Toronto, and third place to "A Study of Empire Trade," by G. M. Rountree, of McGill University. Mr. Stewart's prize-winning paper was called "The economy of machine production in agriculture."

Languages In Europe

Canadian Public Health Association

Annual Meeting To Be Held In Regina In June

Regina will be the scene of another Dominion-wide convention in June, when the Canadian Public Health Association holds its annual meeting here. The dates fixed are June 17, 18 and 19.

At the same time the Saskatchewan Health Officials' Association will hold its annual meeting in conjunction with the Dominion body.

Dr. F. C. Middleton, deputy minister of health for Saskatchewan, is president of the Canadian Public Health Association, while Hon. F. D. McMorris is honorary president. Dr. W. R. Coles, medical officer of health for Regina, is president of the Saskatchewan Health Officials Association.

(By Annette)

CAPELET GIVES SMART NEW EFFECT

Today's interesting home frock is developed in a cotton shantung print in the new flattering salmon-pink tones.

The pretty shantung capelet, ending in an abrupt manner at the front, gives the effect of bared elbows.

An interesting feature is the pointed treatment given the folds to narrow its breadth.

The skirt, slightly flared, has an inverted pleat at the center-front which gives added width without detracting from its slim straight appearance.

This easily made dress, Style No. 198 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust.

Such a model could well be carried out in white flat washable crepe silk with vivid sailor blue bindings for resort.

Linen, plique, striped tub silk, printed batiste, gingham, etc., are delightfully lovely fabrics to select.

Price of Pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

WINS RECORD FOR BRITAIN

Kays Don, noted British speed driver, recaptured the motorboat record by piloting his motorboat at 103.73 miles an hour.

Manitoba-Ontario Highway

Official Opening To Be Held Between Winnipeg and Kenora In September

Prominent men in political and business life of Manitoba and Ontario will participate in the celebrations at the opening of the new link of the Trans-Canada highway between the two provinces.

The official opening will occur next September and will mark the joining of the road between Winnipeg and Kenora on the Lake of the Woods.

On behalf of Manitoba the following men will be included in the official party: His Honor James Duncan McGregor, lieutenant-governor; Premier John Bracken, Hon. W. R. Clubb, minister of public works; Hon. R. A. Hoey, minister of education; Lieut.-Col. Ralph H. Webb, mayor of Winnipeg, and Sanford Evans, M.L.A., representing the Associated Boards of Trade.

Patrons for Ontario attending will be: His Honor William D. Ross, lieutenant-governor; Premier G. S. Henry, Hon. C. McCrea, minister of mines; Hon. W. Finlayson, minister of mines and forests, and Dr. W. J. Gunn.

Branches in the two provinces of the Manitoba-Ontario-Trans-Canada Highway Association will foregather shortly to formulate an agreement on joint plans for the opening.

The Pacific Ocean covers 68,000,000 miles, the Atlantic 30,000,000. It would take all the sea water in the world 2,000,000 years to flow over Niagara.

Some animals, like the rabbit, have eyes on the side of their head because they are hunted, while others, like the fox, have eyes in front since they are primarily hunters.

Says Manufacturers Should Take Care Of Raw Products From Western Canada Farms

Direct Result Of Grading

London Advances Price Of Canadian Cheese Over New Zealand Product

No industry is favored with more instruction, inspection, guidance and encouragement from Government officials and self-appointed crusaders than is the enterprise we call dairying. But there is a good motive behind all this paternalism, and happily it is bearing fruit. From Dr. J. A. Riddick, Dairy Commissioner for Canada, comes this terse statement: "According to the 'London Grocer' the average London quotation for Canadian cheese for the calendar year, 1930, exceeded the London quotation for New Zealand cheese by 3.06 cents per pound."

When we add 3 cents per pound to the cheese manufactured in Canada (for that is what it really means) we begin to appreciate what cheese grading, factory improvement, payment by test, and general packing mean to the dairymen of this country. And when we recall that at one time New Zealand cheese was threatening the prestige of the Canadian product on the British market we can, quite properly, give ourselves a pat on the back.—Farmers Advocate.

Interest In Horticulture

Societies In Saskatchewan Planning To Organize a Fall Circuit

Horticultural societies in Saskatchewan are planning to organize a fall fair circuit, reports W. E. Lake, Saskatchewan University extension lecturer. Springdale, Melville, Watrous, Yorkton and Canora societies have been in correspondence on this project and it is believed that the Melville and Prince Albert horticulturists may also join. A bulletin prepared by plant experts for the Horticultural Societies Association, listing the plants recommended for cultivation in Saskatchewan will be ready in a few days at the extension department of the University.

Likely Lots More

Antique Dealer (to American): "Now, sir, if you'll stop this way, I've a very fine specimen of a Queen Anne sideboard I would like to show you."

American: "Say, that old queen of yours must have had a big dining room. This'll be the eighth sideboard of hers I've been shown this week."

LATEST PORTRAIT OF HER MAJESTY

QUEEN MARY OF ENGLAND

Reproduced above is the latest portrait from London, England of her majesty Queen Mary of England, wearing the magnificent tiara and necklace of royal jewels. Her majesty celebrates her birthday on May 26.—Photograph by Hay Wrightson, London, England.

Co-operation by Eastern manufacturers with Western farmers is the means by which Western Canada will return to prosperity, Senator W. A. Buchanan, of Lethbridge, Alberta, told members of the Toronto Board of Trade at a recent gathering.

What can only be partially displaced in the west by diversified farming, Senator Buchanan said, but a reduction in wheat acreage is possible through the introduction of more stock raising and the establishment of sugar beet factories, vegetable canneries, cheese factories, milk condensaries and an extension in the sheep raising industry. What was needed with this diversified agriculture was the industries to take care of the raw products.

"Here's where the co-operation of the eastern manufacturer was required," he said. Also the western sheep raisers should be encouraged in the production of more Canadian wool. While Canada could never compete with such wool industries as that of Australia, there was the basis of great wool producing areas in western Canada, the senator said.

Commenting on present conditions in the west, Senator Buchanan said the country was "groggy" in spots, but there was plenty of hope and confidence in evidence.

He belittled talk of secession, which, he said, was found only in districts where agitators "got a chance to air their views." He claimed no one treated secession seriously.

What many farmers needed to do was to live on reserves built up through good years rather than take too many chances on "next year." They should also seek to live off the farm rather than buy canned vegetables, meats and milk.

Production of only the superior class of all products should be urged upon the farmers, he said.

The coal industry was in the worst situation in the history of the west. Unless some other utilization could be found for coal he could hold little hope for the industry in the future.

One industry which had not ceased during the depression, he said, was the production of oil. New fields were being found all the time and in the near future importation of such products into Canada should be eliminated.

Cause Of Gastric Ulcer

Harvard University Professor Announces New Theory

Climaxing seventeen years of research work, Dr. Harvey Cushing, of Harvard University, foremost authority on the surgery of the central nervous system, has announced his theory regarding the cause of gastric ulcer, a problem that has baffled the medical world since 1784.

The ulcer is caused by disturbance in the diaphragm, that part of the brain which is the seat of the primitive emotions, and which governs most of the automatic actions of the body, he stated.

Dr. Cushing spoke in Convocation Hall before the faculty of medicine of the University of Toronto, which celebrated the 104th anniversary of the birth of Lord Lister, eminent surgeon.

His explanation of the cause of the ulcer is the first coherent and completely tenable answer to the problem that has yet been proposed, Toronto medical authorities who attended the lecture said.

The gastric ulcer is one of the most common maladies of the present day, and is said to be increasing. It is usually found in those who are overworked or under great emotional stress.

Explanations and Comments

W. C. LECKIE
 Recently appointed a vice-president of Standard Brands Limited, in charge of Gillett Products Division.

Had Successful Year
 Standard Brands Limited Reports Record Business—W. C. Leckie Appointed Vice-President

At the annual meeting of Standard Brands Limited, held in Montreal on March 31st, Mr. Corwin Wickersham, president, announced that the year just closed has been a remarkably successful one, particularly in view of general conditions throughout Canada.

Sales of the majority of Standard Brands' products have shown steady gains in the past twelve months, and an indication of the future is seen in the fact that, for the first three months of 1931, sales of all major products have eclipsed the record peaks reached in the corresponding period a year ago.

Mr. Wickersham also announced the appointment of Mr. W. C. Leckie, Toronto, as vice-president in charge of Gillett Products Division of Standard Brands Limited. The new list of officers is now as follows: Corwin Wickersham, president; J. W. Horsey, vice-president, in charge of Fleischmann Products Division; John Anderson, vice-president, in charge of Chase & Sanborn Products Division; W. C. Leckie, vice-president, in charge of Gillett Products Division.

Mr. Leckie has been actively connected with the marketing of Gillett Products: Magic Baking Powder, Gillett's Lye, Royal Yeast Cakes, etc., for many years, having served, previous to the merging of E. W. Gillett Company, Limited, into Standard Brands Limited, as vice-president and general manager of the former organization.

NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety to my slender wardrobe I change the color of a dress or stockings as soon as the things become faded. I always use Diamond Dyes for the work—using pens as dyes are so soon as for stockings. I have always gotten such perfect results that our neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes—and they deserve to be."

L. P. Montreal.

The Lamb Market

"Two million lamb carcasses are required to fill the total wants of the Canadian consumer today, while at best our Canadian production is around 1,500,000 carcasses a year. These figures are irrespective of local consumer consumption, on which no statistics are obtainable."—Canadian Co-Operative Wool Growers, Limited.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Displaces Thousand Men
 A giant ditch digger is operating in Los Angeles, which does the work of 1,000 men. The digger is capable of removing four cubic yards of earth every 35 seconds, and it keeps 40 trucks constantly on the move removing the dirt it piles up.

A full-grown apple tree has approximately 50,000 leaves.

and his Dog SCOTTIE

There we were! Standing on the edge of the cliff about his. Fire to the right of us, due to the left and behind us. The strange arrangement through the underbrush.

It hit the water with a "splash" and tumbled slowly up to us. There was good old Bob! He had been out there for some time. I listened, too—and sure enough it was the same spinning down to the shore. I didn't expect to get something so good to boot.

"Well," said Bob, "you don't look un-likely to be a hunter of old rats. Where did you get that swell suit?"

"Quite comfortably we floated down to the shore. I turned and saw the possibility of having to jump. We ran into an air pocket and dropped the boat. I was a freight going east."

"Well," said Bob, "you don't look un-likely to be a hunter of old rats. Where did you get that swell suit?"

New Crown of the Seas

Construction Work on Giant Cunard Liner Is Proceeding Rapidly

Work on the new 73,000-ton Cunard liner has progressed so rapidly that work was received at the local office of the Cunard Line to the effect that it is highly probable that the date of the launching will be advanced from June, of 1932, to February, of next year.

The yards of John Brown and Company, who are building this giant liner, have been the scene of feverish activity ever since the order for the vessel was first given and the clang of the riveting machines has been incessant for twenty-four hours every day for weeks.

Factories and foundries all over Great Britain are also to be found working on a twenty-four hour schedule in an effort to speed up the work as much as possible. No little effort has been made to ensure that all the component parts that will go to make up this vessel and all her equipment, will be of the very best and hundreds of the finest craftsmen that are present "doing their bit" in producing this new "Queen of the Seas."

It was only last Sunday that the rudder for the new ship left the factory in Darlington on board a steamer that required special fitting out for the job of transporting it to the yards of John Brown at Clydebank. This gigantic piece of metal weighs over one hundred and fifty tons and is the largest that has ever been constructed. Skilled mechanics have been working for weeks in the building of this rudder.

In comparing the size of this vessel to any other liner that has ever been built, an astounding comparison has been disclosed. If it were possible to take the hulls of the first four vessels of the original Cunard fleet, and place them in the inside of any of the funnels which will grace the new Cunard, there would still be room to spare.

While work has been proceeding apace at Clydebank, there has also been considerable activity at Southampton, where the new graving dock is in the course of construction. Each year the Cunard Line gives every one of their fleet a complete overhauling and placed back in the service. This

that you and Scottie were lost there must have been a very good reason. It was a question of getting out of the boat. In fact, I didn't even stop to enquire as to the matter. I was just as sure as the proverbial wheel was round that I was going to be all right.

"Anyway, here's your life preserver," said the man. "You may have to wait a while if this bunch of misfit pants doesn't haul together. You may have to wait a while if the time the parachute was strapped on we were ready to go. Now gave him a gas carefully, we moved out into the lake, turned and headed into the wind."

"If we did have to jump, I must find some way of strapping Scottie on. Only for an instant, he couldn't wait. I found a piece of strong canvas in the bottom of the cockpit and in this I cut four holes, just big enough to shove Scottie's legs through."

"This thing I fastened securely to one of the parachute straps. It was now well tied to the parachute, and if I had a jump, the chances were about 50-50 with me, and with all these autos around, the best chance was about 50-50."

After a while I settled down, and there far above the ground I saw the possibility of having to jump. I turned and saw the possibility of having to jump. We ran into an air pocket and dropped the boat. I was a freight going east."

Unlimited Supply of Salmon

British Columbia Industry Will Be Maintained For All Time

The salmon supply in British Columbia will be maintained for all time and the salmon canning industry should increase in value in the future, Major J. A. Motherwell, Dominion Superintendent of Fisheries for British Columbia, states in his annual report. The record 1930 pack was 2,221,783 cases, which exceeded the previous record of 1926 by 156,585 cases.

An adult lion in captivity eats about 16 pounds of meat a day.

Rheumatism?

Quick relief from rheumatic pains without harm!

ASK STATEMENT OF POLICY ON UNEMPLOYMENT

Ottawa.—A demand from different parts of the House of Commons that the government state its policy on unemployment, and a declaration from the prime minister that such a statement would be forthcoming when estimates were discussed, featured a hectic session in parliament.

The practice in British parliament, Premier R. B. Bennett declared, was to pass the address in reply to the Speech from the Throne before the government stated its policies. He proposed to continue that practice. After the address was passed, the government would state its policies on several questions, particularly unemployment.

From East and West came complaints of unemployment conditions, warnings of possible riots, and demands for government action. In a spirited brush with the prime minister, R. Hon. Mackenzie King, opposition leader, asked for a statement of the government's unemployment policy. What had the prime minister meant during the last election campaign when he said he would end unemployment?

"I do not propose at this moment to answer hon. gentlemen opposite other than to say this: I never expected to undo in a day, by remedial legislation, the wrongs that have been done to this country in the past 10 years," retorted the prime minister. He claimed no government had done more to implement its promises than had this one.

J. S. Woodsworth, Labor member for Winnipeg North Centre, asked for a statement from the government on unemployment insurance. He did not regard it as a cure for unemployment—what was needed was work—but it would be of some assistance in alleviating conditions.

A prediction by Mr. Woodsworth that there would be riots unless remedies were offered to unemployment conditions precipitated a heated exchange between the Labor member and Hon. R. J. Manion, Minister of Railways.

The latter said a member who stood in the House and said there might be riots was "consciously or unconsciously inciting to riots."

The deputy speaker intervened to say that Mr. Woodsworth must express his own opinion, and the member for North Winnipeg Centre retorted he was expressing just that.

Finally, after further discussion, in the interim supply bill as introduced was put through all stages and passed by the House.

May Meet In Arctic

Rencontre Arranged Between Dr. Hugo Eckener and Sir Hubert Wilkins

Friedrichshafen, Germany. — A possible rendezvous in the polar regions between the Graf Zepplin and Sir Hubert Wilkins' submarine "Nautilus" was forecast to the Associated Press by Dr. Hugo Eckener.

"It is quite possible that a flight into the Arctic regions may eventuate this year," said the commander of the dirigible. "It all depends on whether we can finance the proposed expedition. If so, I expect to personally command the Graf. In New York Wilkins and I agreed to try to meet in the polar wastes."

To Reside In Montreal

Montreal.—The Montreal Star says it is reliably informed that Col. William Avery Bishop, V.C., the Allies' greatest war ace, will take up business in Montreal, where he will be associated with an oil company. The colonel has lived abroad practically since the war ended, returning to Canada this year. The Star says he will work here and commute by aeroplane to his home in Muskoka.

Gandhi May Revolt Again

Ahmedabad, India.—Apprehension was caused in government circles by the statement of friends of Mahatma Gandhi, that he was contemplating marshaling his non-violent crusaders again for a new assault on British rule in India. The Nationalist leader was said to be disenchanted with the present day.

Red Demonstration

Six Thousand Unemployed Battle With Police In Winnipeg

Winnipeg, Man.—Six thousand unemployed disrupted the usual orderliness on city streets recently, when they clashed with officers of the law in one of the most serious demonstrations witnessed in the Manitoba capital in years.

Six demonstrators are in hospital as the result of the battle. More than a score of others are suffering from injuries, caused by the policemen's batons and flying missiles that broke store windows and damaged automobiles and street cars.

The struggle with the police occurred following a demonstration in front of the Legislative buildings as heads of the unemployed interviewed Premier John Bracken and placed their appeals before him. The 6,000 men attempted to parade home ward. Jeering of police started and several of the unemployed attempted to block street car and automobile traffic.

Suddenly, one demonstrator picked up a stone and hurled it at a policeman. It was the signal for battle.

Huge rocks, pieces of cement taken from a road under repair, flew fast and thick. Policemen swung their batons on the bodies of the unruly as the missiles whizzed around them, crashing into store windows and automobiles. As the struggle waged, the demonstrators kept up a roar of boogie.

Men, bleeding around the head, rushed from the scene. Many others continued the struggle until the officers arrested several. Then the turmoil ended and the struggling mass of humanity drifted homeward in groups, singing the "Red Anthem" and cheering the Soviet regime.

Fast Telegraph Service

New Canadian National Wire Carries 9,000 Words Per Minute

Winnipeg, Man.—The world's greatest telegraph capacity for one pair of wires has been placed in service between Toronto and Winnipeg with the conclusion of experiments by the Canadian National Telegraphs and the installation of a 24-channel carrier current system between Toronto and Winnipeg.

Giving a theoretical maximum telegraphic speed of about 9,000 words per minute the system is designed to take care of transmission needs between east and west for a number of years to come. It makes use of a double modulation principle by working two types of carrier system, one superimposed on the other. One pair of wires between Toronto and Winnipeg is made, by the new system, to provide 24 trunk telegraph circuits.

Accidents On Streets In Britain Increasing

Records Show Daily Average Of Twenty Deaths During 1930

London, England.—Life on the streets of Great Britain is becoming increasingly dangerous. —A daily average of more than 20 street deaths is recorded during 1930 by the home office.

Accidents caused by vehicles and horses during the year totalled 156,793, an increase of 4,992 over the previous year. There were 7,305 persons killed, 609 more than in 1929, and 177,895 injured, an increase of 6,978.

Sailed For Europe

Major Herridge and Bride Depart On Wedding Trip

New York.—Major W. D. Herridge, new Canadian envoy to the United States, and his bride, the former Miss Mildred Bennett, sister of Premier R. B. Bennett, of Canada, departed for Europe after spending the first day of their wedding trip in New York.

The minister-designate said he would take up his new duties at the Canadian legation in Washington about June 1.

Two Killed In Mine Blast

Edmonton, Alberta.—Caught in a terrific gas explosion which rocked the entire workings, two men were killed and one seriously burned at the Elderslie Collieries mine 12 miles south of here.

WINS WRITING CONTEST

Raymond Knister of Port Dover, Ont., who has been awarded \$2,500 as first prize in a Dominion-wide novel writing contest conducted by an Ottawa publishing firm.

Would Deport Canadians

Reported Allen Drive In New England States Will Affect Many Quebec French

Montreal.—The Gazette publishes a despatch from Manchester, N.H., in part as follows:

"With 35 additional Federal officers at her command, Mrs. Anna C. M. Tillagham, commissioner of immigration in the New England district, which includes all of the New England states except Maine, is completing extensive plans for a wholesale roundup and deportation of many thousands of aliens illegally residing in this section.

"At least 26,000 French-Canadians will either be deported or returned to their native province of Quebec before the middle of next month, it is estimated. The drive is instituted to protect native labor.

"The immigration officials point out that the coming drive against aliens is not directed in any sense at any particular nationality or class."

Tariff Advisory Board Promised

To Replace Old Board Which Was Abolished Last August

Ottawa, Ont.—Establishment by the government of a commission to replace the old tariff advisory board which was abolished by order-in-council last August would seem to assume more definite shape in the light of promised legislation, by the inclusion of \$120,000 in the estimates "to provide for salaries and expenses of the tariff board."

This is an amount similar to that voted last year for the maintenance of the now defunct body.

In the Speech from the Throne the establishment by legislation of a board which would investigate matters relating to tariffs was promised.

Advocates Deflated Coin

Alberta Member Thinks Monetary Policy Of Canada Needs Change

Ottawa, Ont.—Business in Canada would improve materially if the Canadian dollar were allowed to depreciate to the level it reached at the close of the Great War, is the belief of George G. Coote, member of parliament for Macleod, Alberta.

Addressing an Ottawa service club, Mr. Coote expounded the theory that the monetary policy of the Dominion is in need of a change. "Deflation has been practiced in practically all gold countries, resulting," he said, "in a disastrous fall in the price level of commodities. All industries in Canada are suffering today and it would be just to reasonably inflate prices now as a corrective to excessive deflation of values."

Mr. Coote contended that a 30 per cent depreciation of the dollar in the Argentine and Uruguay had resulted in those countries taking the Canadian wheat market in Great Britain.

Russian Coal

Statements Attributed To Canadian High Commissioner Area Questioned

Ottawa, Ont.—Statements attributed to Hon. G. Howard Ferguson, Canadian High Commissioner in Great Britain, were read to the House of Commons by Thomas Reid, Liberal member for New Westminster, who wanted to know if they were official and bore governmental approval.

The former Ontario premier was quoted as saying that Canada placed a ban on Russian imports of coal because it had been found that country was competing with Wales in the Dominion market.

Mr. Reid understood Canada had refused to trade with Russia for this country's own goods and not for the benefit of Wales or Great Britain. No answer came from the government benches and the incident closed.

Australia's War Payments

Amount Of Payment Of Australia To Britain To Be Reduced

London, England.—In response to a request from the Australian government to recognize the commonwealth's financial difficulties, His Majesty's government has agreed to reduce the payments of Australia to Great Britain under the war debt funding agreement of 1921. The payments amount to approximately \$26,200,000 yearly, and under the new agreement may be reduced by more than \$5,000,000 yearly during the next two financial years, commencing October 30 next. In addition, the period of repayment of the principal debt may also be extended two years.

This announcement was made in the House of Commons by R. Hon. J. H. Thomas, secretary of state. Australia's war debt under the agreement of 1931, was shown at \$464,200,000.

CRACK ENGLISH TRAIN WRECKED

The photograph reproduced above shows a view taken from the air of the heap of smouldering matchwood and twisted steel, all that was left of the "Royal Scot," world's fastest train, after it had jumped the rails at seventy miles an hour while en-route from Exton to Glasgow and Edinburgh recently. The crash occurred at Leighton Buzzard, near Leicester, England, and six persons were killed and more than eighty injured.

CLAIM IS MADE ALFONSO DID NOT ABDICATE

Madrid, Spain.—Members of the former monarchist government said that Alfonso did not sign an actual document of abdication.

They still, however, will not reveal precisely what he did sign. The idea was gaining ground in Madrid that Alfonso still claims the throne of Spain and may plan to return if future developments should seem to warrant it.

It was said that his exile was not likely to be embittered by poverty. If current reports are true he is one of the richest men in Europe, and possessing the possibility of loss of the throne, he had laid his plans accordingly. The story goes that he not only inherited an immense fortune from his mother, Queen Christina, but himself possessed financial genius which led him to make many shrewd investments. It was also said that he had withdrawn most of his funds from Spain and reinvested them in British and other foreign securities.

Although there was no authoritative announcement that King Alfonso was headed for Great Britain, the present supposition is that he will go to London, England, and probably reside with his family at Kensington Palace, where his wife's mother, Princess Beatrice, lives.

Western Cattle Arrive At Eastern Market

First Shipment Made By Newly Organized Producers Reaches Montreal

Regina, Sask.—The first trainload of cattle shipped from the western provinces to eastern markets by the newly organized Council of Western Beef Producers, has arrived in Montreal, according to a wire received by the secretary, Jack Evers, former Dominion livestock promoter in Western Canada.

Mr. Evers has gone to Calgary to open up the organization's offices in Calgary, which will become headquarters.

Mr. Evers said that the council was organized to market cattle from Saskatchewan, Alberta and British Columbia with a minimum of overhead. Its purpose was to get as close to the producers as possible, he declared.

Britain Buys Russian Wheat

Report Shows Imports Increase For First Three Months Of Year

New York.—The New York Times publishes the following special cable from London:

"Evidence that Britain is buying more wheat from Russia, and about the same from Empire sources, is contained in the board of trade figures for March, which fail to show signs of the anxiously awaited trade revival. The amount paid to Russia for wheat was almost ten times as great in the first three months of this year as in the corresponding period of 1930. The first quarter's import of Russian wheat this year totalled 5,788,947 hundredweight, valued at \$7,318,995, while in the first quarter of last year Great Britain took only 321,912 hundredweight of Russian wheat, with a value of \$778,500.

New Lieut.-Governor Of Alberta

Edmonton, Alberta.—Swearing in Lieutenant-Governor of Alberta, will of Mr. Justice W. L. Walsh as new take place on May 3, according to reports current in Edmonton, Wednesday, April 15. Mr. Justice Walsh will retire from his present post on the Appellate Division of the Supreme Court of Alberta before taking over his new office. He succeeds Lieutenant-Governor Dr. W. E. Egbert.

Gift For Canadian Author

Toronto, Ont.—Miss Marshall Saunders, Canadian author, was last night the recipient of a birthday book bearing contributions from scores of writers and artists, and messages from public men of Canada, when literary clubs have joined to pay tribute to Miss Saunders on the occasion of her 70th birthday.

FOR ADVERTISED GOODS.

Stony Plain and District

Mrs J C Miller, who had been visiting here with her parents Mr and Mrs Wimer, left on Tuesday for her home at Vegreville.

John Cuyes has secured a position in Edmonton, and now resides on 90th St.

Mrs Wm Kelly underwent a minor operation on Tuesday at Misericordia hospital.

BIRTH—In Stony Plain, on Monday, April 20, to the wife of Mr John Ambruster, a son.

The benefit dance for Mr Gilbert McCall, billed to be held here May 1st, has been postponed.

Tomorrow (Friday) evening is the date of the Glee Club dance, and this will, no doubt be the event of the season in local dance circles. Edmonton's best orchestra (Martin's) will dispense the dance music; and everything that present indicates a record crowd will be present in Moose Hall.

On Tuesday afternoon Hon R G Reid, Minister of Municipal Affairs, had the Reeve and Councillors of Inga Municipal District in conference with him, at the Parliament Buildings.

Mr Jacob Janzen, who resides on Railroad ave. west, intends moving in a short time to British Columbia. He has his house and land to rent and will, on or about May 2, have a clearance sale of his goods and chattels.

A band of Romany wanderers paid Stony a visit on Friday and Saturday. While the gentlemen gypsies were engaged in business deals, the lady gypsies told your fortune by looking at your palm.

A Community dance will be held at Heatherdown hall tomorrow (Friday) night, April 24th.

Tecumseh S.D. trustees are advertising for a secretary-treasurer for their district.

Prop. Larson has given his Royal Cafe a thoro renovation this week, having had the rooms repainted and decorated; and has also installed a complete set of new dining tables. There are booths for ladies. Patronise the place where every meal is a treat.

A deputation from Stony's senior ball club, Messrs. Ph. Enders and Edw Clarke, on Tuesday attended a meeting in Edmonton of the amateur baseball league. The application from our club was given favorable consideration, but apparently some doubt existed in the minds of the Edmonton committee as to the ability of the Stonyites to hold up their end against the other teams; and it was arranged that several exhibition games be played, as tryouts for the Stony team.

Applications will be received by the undersigned for the position of Secretary-Treasurer of Tecumseh S.D. No. 1992 for the balance of 1931.

Tenders received up to noon, April 30, 1931.

H. J. McDONALD.

Secretary-Treasurer,
Holborn, Alta.

Spruce Grove to Incorporate

As predicted in The Sun a short time ago, the incorporation of Spruce Grove, raising it from a hamlet to the status of a Village, is about to be consummated. A meeting, to arrange for this much-desired event, was held last week, and following this a deputation waited on Hon. G. W. Reid, Minister of Municipal Affairs, who immediately got busy and put the necessary machinery in motion to effect the purpose.

A perusal of the legal notice in this issue shows that the new corporation will include all of J Brox's quarter; the subdivision on which the hamlet now stands; all the R.R. property south of Lake line; St Joseph church property; and all the land south of the tracks to the Jac Schmez fence.

The indicated area will include land which pays taxes to the amount of \$400.00 in Councillor McLaughlin's division; and which pays \$300 into Councillor Th Wudel's division.

Those who wish to oppose the proposed incorporation have until May 13th in which to do this. But, at the present time, it appears as though the opposition will not amount to much.

Spruce Grove News.

Mr and Mrs Chris Wangler moved on Tuesday to their farm, north of town.

Bill Connor, who left last week for Calgary, is said to have secured a very lucrative position.

Messrs J Brox and M Mac Kean were business visitors to Stony on Tuesday.

Mr Dan Brox attended the dance of the Old Timers, in Edmonton; Friday night, being a member of the Reception committee.

At the recent Spring Show in Edmonton, Dick Secord sold a group of heaves to Swift at \$5.25 ewt.

Jack Nickels has got a new gramophone record in, called "The Robin Redbreast Song." Jac buys a new record every Spring.

A number have intimated their intention to attend the big dance at Stony tomorrow (Friday) night.

NOTICE IS HEREBY GIVEN that, pursuant to the provisions of The Village Act in that behalf, a petition has been presented to the Minister of Municipal Affairs, praying for the erection of

Firstly: All that portion subdivided under Plan No. 2387 A.R. of record in the Land Titles Office for the North Alberta Land Registration District.

Secondly: All that portion of the Southwest Quarter of Section Three (3), Township Fifty-three (53), Range Twenty-seven (27), West of the Fourth Meridian, in the said Province, not subdivided under said Plan No. 2387 A.R.

Thirdly: All that portion taken for Station Grounds in the Northwest Quarter of Section Thirty-four (34), Township Fifty-two (52), Range Twenty-seven (27), West of the Fourth Meridian, in the said Province, containing 26.88 acres more or less, as shown on Railway Plan No. 6267 R. of record in the said Land Titles Office.

Fourthly: All that portion of the original road allowance, lying to the North of the North-east limit of the Northwest Quarter of said Section Thirty-four (34).

Fifthly: The East half of Legal Subdivision Sixteen (16) of the Northeast Quarter of Section Thirty-four (34), Township Fifty-two (52), Range Twenty-seven (27), West of the Fourth Meridian, in the said Province, containing Twenty (20) acres more or less, excepting thereout 2.52 acres taken for right-of-way of the Grand Trunk Pacific Railway Company.

Sixthly: All that portion of the East half of Legal Subdivision Sixteen (16) in the said Section Thirty-four (34) which lies between two lines parallel with the centre line of the Grand Trunk Pacific Railway as shown on said Railway Plan No. 6267 R., one parallel line being Fifty (50) feet perpendicularly distant Northerly from the said centre line and the other being One Hundred and Sixteen (116) feet perpendicularly distant Southerly from the said centre line.

Seventhly: All that portion of Legal Subdivision Fifteen (15) and the West Half of Legal Subdivision Sixteen (16) of said Section Thirty-four (34) which lies North of a line parallel with and perpendicularly distant Southerly Three Hundred (300) feet from the centre line of said Railway as shown on said Railway Plan No. 6267 R.

into a Village, and that all objections to the organization of such territory into a Village must be filed with the said Minister within 30 days from date of this notice.

DATED at Edmonton, Alberta, this Thirteenth day of April, 1931.
(Signed) R. G. REID,
Minister of Municipal Affairs,
Edmonton, Alberta.

United Grain Growers Re-enter Export Business.

United Grain Growers Ltd., farmer co-operative, is re-entering the business of exporting Canadian grain. R. S. Low, president of the company, announces.

The export business will be under the direction of Mr. J. J. O'Donohue as manager of the Grain Growers Export Co., a subsidiary Co. with head quarters in the New York Produce Exchange.

Prior to 1923, when the exporting department was discontinued, the U. G. G., with 450 elevators in the country and terminals at Port Arthur and Vancouver, was a large exporter of grain from the prairies.

President Law says: "The directors felt that under conditions demanding the utmost effort on the part of the country in disposing of Canadian grain, it was incumbent upon United Grain Growers to take part as in former years in seeking markets for western grain abroad."

Before the P. M.

The first item on the docket at the opening of the local Court, on Monday was the adjourned case of Mike Schmiegelski, charged with an assault on Mrs. Wm Spicer. The Magistrate had reserved judgment when the accused last appeared, and on Monday adjudged Mike guilty, and fined him \$40 and the costs of the Court; and made him put up a surety to keep the peace for the period of one year. Mike's brother Joseph going his surety in the sum of \$200.

United Church Notes

On Sunday, April 19, we were able to hold good services at Spruce Grove and Stony Plain, despite the very unfavorable weather. The Pastor spoke from the text II. Tim. 2:9: "The word of God is not bound."

On Saturday last the Ladies' Aid served a very delicious supper which was greatly appreciated by those who partook.

See Geo. Oppertshauer for Your Insurance.

I represent the Wawanesa Mutual Fire Insurance Co., the Hartford Fire Insurance Co., and Fidelity Auto Insurance Co.

C.W. McKenna Passes Away

The funeral service took place last week in St. Joseph's cathedral, Edmonton, of the late C. W. McKenna, who farmed for several years three miles west of town. Deceased was a "returned" man, and started farming under auspices of S. S. Boyd, with an intention as a sideline. Leaving the farm, he operated a taxi in Edmonton, and latterly was on the staff of Massey-Harris Co. "Mac" was well liked, and had a host of acquaintances and friends.

The remains were shipped to Chicago for interment.

Get Your Spare Tire Number

As the result of what seems like an epidemic of thefts of spare tires from cars while parked in Edmonton, police of that city request that you check your spare tire, for reference. To ensure a complete check up, it is requested that auto owners take note of the numbers on their spares. On several occasions recently the police recovered tires, but the owners were unable to identify them.

Duffield, Doings.

On Tuesday next, April 28, Duffield Women's Institute will hold their regular monthly meeting: Mrs. Brebner convenor. Subject, Home Economics Demonstration. Roll call. A Recipe from Alberta products for a winter supper. The hostesses will be: Mrs. D. Taylor, Mrs. Brebner, Mrs. Roberts; (luncheon of Alberta products).

Mr. Joe Best, who had been suffering from an injury to his leg, is now making good progress toward recovery.

Work is expected to start very shortly on the new up-road from Francey's corner to Alberta Beach.

There will be no service on Sunday next at the local R. C. chapel.

Bright Bank Briefs

Seeding is well under way in this district at the present time, and the land is in good shape for working.

Mr. A. W. Ellis of Inga has moved over temporarily, and is now working his farm in this district.

Ann Taylor of Brightbank sold to Gainer's Limited for 725 cwt. the prize steer she had shown at the recent Edmonton Spring Show.

Mrs. Truax has rented her farm and moved to Stony.

The Junior U. F. A. dance at Lucknow school on Friday evening was well attended; and a success in every way. Nearly 300 were present.

Mr. M. Mickelson last week caught a large baldheaded eagle in a trap; the bird had a wingspread of 7' 2". It had been molesting his herd of sheep, and was credited with carrying off two lambs in one week.

A party of young people motored out, last week, to the barn dance at Bert Edwards', and report having had a very pleasant time.

Glee Club's Dance at Moose Hall, April 24.

New Bodies by Fisher for the New Chevrolet

IN the new Chevrolet Six with longer wheelbase, you will quickly notice that Fisher Body craftsmen have created the roomiest and most beautiful body styles in Chevrolet history. Yet prices have been substantially reduced.

The smart, modern lines of the car are emphasized by the deepened radiator and new deluxe wire wheels... distinctive color harmonies and chrome-plated trimmings add a finishing touch.

Interiors are roomier... beautifully upholstered... and fashionably appointed. The front compartments are fully insulated against heat, cold and noise.

See the new Chevrolet Six at our showrooms. You can own it with even more pride... buy it for even less money.

Your Chevrolet dealer is listed under "General Motors" in the classified section of your 1931 phone directory... Ask him about the G.M.A.C. plan of deferred payments, and the General Motors Owner Service Policy. Twelve smart, fine-performing models... priced from \$610 at factory, Oshawa, taxes extra.

"Forward Canada!"

Across the Dominion is sweeping a wave of national enthusiasm... free and unbounded. Canadians everywhere are setting forward on the rising tide of a fresh and vigorous prosperity. General Motors of Canada, Limited, pays tribute to Canadian achievement with "Canada on Parade," a radio hour every Friday evening, typifying the spirit of Canada's progress. You are cordially invited to tune in on this all-Canadian broadcast.
